

NEENAH Image Clip® Koncert T's

Transfer Paper for Dark-colored Substrates

Product Information Bulletin

Product Description:

NEENAH Image Clip® Koncert T's heat transfer papers are designed for the heat transfer of white letters and images to pastel, dark and bright colored substrates using laser copiers or laser printers. There is no need to trim this paper. This product is self-weeding and leaves NO background plastic polymer.

Product Benefits:

- Replace White Vinyl Lettering on Work or Team Wear
- Cold Peel Application
- Just TWO Easy Heat Press Steps Required!
- For Commercial Heat-Press Applications
- Manufactured by Neenah Papers Inc
- Self-Weeding – Leaves NO Background Plastic Polymer
- Transfer a Recipe, Instructions or a Saying

Product Applications:

NEENAH Image Clip® Koncert T's is designed to replace the need for white vinyl lettering on work or team wear or to promote event schedules. Transfer white letters and images to pastel, dark and bright colored substrates including T-shirts, handbags, mouse pads, coasters, leather articles, art papers and more. It works very well with 100% cotton, 50-50 blends or synthetic fabrics such as polyester. It works in most newer technology oil and oil-less lasers printers and copiers. Apply with a commercial heat press only in just TWO steps. This product is self-weeding and requires no trimming. Choose garments that have a tight weave.

Product Specifications:

Stock Sizes:

Sheets: 8.5" x 11"; 11 x 17";
A3 and A4

Custom Sizes:

As Special Order

Packing:

8-1/2" x 11" and A-4 –
1000 sheets per carton
11" x 17" and A-3 –
500 sheets per carton

Printer Compatibility:

Compatible with most newer technology color laser copiers and printers

MICHIGAN Specialty Paper

NEENAH Image Clip® Konzert T's Heat Transfer Paper

FOR LASER COPIERS OR PRINTERS

NEENAH Image Clip® Konzert T's Heat Transfer Papers are designed for the heat transfer of a white image to pastel, dark and bright colored items including T-shirts, handbags, mouse pads, coasters, leather articles, art papers, etc. using most newer technology fuser oil or oil-less laser copier or laser printers. IMAGE CLIP® Konzert T's works well on cotton, 50-50 blends and polyester. **There is no need to trim the paper. NEENAH Image Clip® Konzert T's Heat Transfer Paper is self-weeding and leaves no background plastic polymer.** Choose fabrics that have a tight weave.

PRINTING:

1. Mirror the image.
2. Laser print the coated side of the paper identified as the Imaging Sheet.
3. NEENAH Image Clip® Konzert T's Imaging Sheet (blue printing on back) should be fed into the copier or printer with the short dimension first (grain long). For best results, use a heavy paper weight setting such as Label. Consult your printer manual for settings.

TRANSFERRING:

Commercial Heat Press Only (No Hand Iron)

1. Marry the imaged sheet (Blue back) to the transfer sheet (Yellow back). This will apply the transfer coating to the imaged area. Press: **20 seconds at 250°F using medium pressure**
Separate the papers while still hot.
2. Place the imaged sheet (Blue back) face down onto the shirt or other substrate.
Press:
25 seconds at 375°F using heavy pressure
3. Cool before peeling. For best "Hand" lightly stretch garment while still hot.

1st HEAT PRESSING

TEMPERATURE	250°
PRESSURE	Medium
TIME	20 Sec.

2nd HEAT PRESSING

TEMPERATURE	375°
PRESSURE	Heavy
TIME	25 Sec.

For Use With:

Laser Printer/Copier

Heat Press

NO Hand Iron

Dark or Bright Color

WASHING INSTRUCTIONS:

Turn garment inside out and wash in cold water using a mild detergent, **do not use bleach**. Dry on low heat setting. Do not iron directly on the transferred area.

STORAGE AND HANDLING OF NEENAH Image Clip® KONCERT T's HEAT TRANSFER

PAPERS: Store in a cool, dry area and do not remove from carton or poly bag until you are ready to use.

IMPORTANT

We thoroughly test each of our products on various substrates using different transfer equipment. However, it is impossible for us to duplicate all variables using all substrates and transfer equipment. Therefore, it is essential that you test the paper prior to production using your equipment, methods, and substrate material. Heat presses vary in accuracy. Conduct tests to determine the best time and temperature to use with your equipment. Please keep in mind that the Seller's and Manufacturer's maximum obligation shall be to replace any paper that has proven to be defective. Neither the Seller nor the Manufacturer shall be liable for any injury, direct or consequential, arising out of the use of, or inability to use this paper.
