

Neenah Image Clip Laser Dark

Transfer paper for Dark-Colored Substrates.

Product Description:

Neenah Image Clip Laser Dark heat transfer paper is designed for the application of full color images using color laser copiers or color laser printers, to dark and bright colored substrates. Neenah Image Clip Laser Dark applies a white layer to the back side of your design, allowing application of bright colors to dark materials and substrates. This paper is self-weeding (no trimming required) and leaves NO background plastic polymer. Designed for images that do not contain white (i.e., not intended for photographs).

Product Benefits:

- For Oil and Oil-Less Color Laser Printers and Copiers
- Cold Peel Application
- Just Two Heat Press Steps Required!
- For Commercial Heat-Press Applications
- Manufactured by Neenah Papers Inc.
- Self-Weeding & Leaves NO Background Plastic Polymer.
- Use to Capture the High End Art Demand for Dark Substrates

Product Applications:

NEENAH IMAGE CLIP® Laser Dark is designed to be used in most new technology oil and oil-less color lasers printers and copiers. Transfer high-resolution photographs and images to dark or bright colored substrates including T-shirts, handbags, mouse pads, coasters, leather articles, art papers and more. It works very well with 100% cotton, 50-50 blends or synthetic fabrics such as polyester or nylon. Apply with a commercial heat press only in just TWO steps with no trimming required. Choose garments that have a tight weave.

Product Specifications:

Stock Sizes:

8.5" x 11" Sheets

Custom Sizes:

Some sizes not shown are available as special order.

Packaging:

8.5" x 11" sheets – available in 25, 50, 100 and 500 packs

Printer Compatibility:

Compatible with most newer technology color laser copiers and printers

NOTE: Due to the nature of this product some experimentation may be required to achieve the desired results.

Washing Recommendation:

We recommend you turn the shirt inside-out; use a delicate wash cycle, or wash by hand, in cold water with a mild detergent. Hang dry or in a dryer using delicate setting. Do not iron over transfer.

MICHIGAN Specialty Paper

IMAGE CLIP® Laser Dark Heat Transfer Paper

FOR LASER COPIERS OR PRINTERS

NEENAH IMAGE CLIP® Heat Transfer Papers are designed for the heat transfer of full color images with most newer technology oil or oil-less laser color copier or color laser printer to dark and bright colored items such as T-shirts, handbags, mouse pads, coasters, leather articles, art papers, etc. NEENAH IMAGE CLIP® Laser Dark works well on cotton, 50-50 blends and polyester. There is no need to trim this paper. NEENAH IMAGE CLIP® Transfer Paper is self-weeding and leaves no background plastic polymer. Choose garments that have a tight weave.

PRINTING:

1. Mirror the image.
2. Laser-print the coated side of the Imaging Sheet (**PURPLE BACK**).
3. NEENAH IMAGE CLIP® Laser Dark Paper should be fed into the copier or printer with the short dimension first (grain long). For best results, use a heavy paper setting. Consult your printer manual for settings.

TRANSFERRING:

Commercial Heat Press Only (No Hand Iron)

1. Marry the image sheet (**Purple back**) with the transfer sheet (**Beige back**). This will apply the transfer coating to the imaging area. Press: **20 seconds at 250°F using heavy pressure**
Separate the papers while still hot.
2. Place the imaging sheet (**Purple back**) face down onto the shirt or other substrate.
Press: **25 seconds at 375°F using heavy pressure.**
3. Cool shirt before peeling. For best "Hand" lightly stretch garment after peeling.

For Use With:

Laser Printer/Copier

Heat Press

NO Hand Iron

Dark or Bright Color

1st HEAT PRESSING

TEMPERATURE	250°
PRESSURE	Heavy
TIME	20 Sec.

2nd HEAT PRESSING

TEMPERATURE	375°
PRESSURE	Heavy
TIME	25 Sec.

WASHING INSTRUCTIONS:

Turn garment inside out and wash in cold water using a mild detergent, **do not use bleach**. Dry on low heat setting. Do not iron directly on the transferred area.

STORAGE AND HANDLING OF IMAGE CLIP® LASER DARK HEAT TRANSFER PAPERS

Store in a cool, dry area and do not remove from carton or poly bag until you are ready to use.

IMPORTANT

We thoroughly test each of our products on various substrates using different transfer equipment. However, it is impossible for us to duplicate all variables using all substrates and transfer equipment. Therefore, it is essential that you test the paper prior to production using your equipment, methods, and substrate material. Heat presses vary in accuracy. Conduct tests to determine the best time and temperature to use with your equipment. Please keep in mind that the Seller's and Manufacturer's maximum obligation shall be to replace any paper that has proven to be defective. Neither the Seller nor the Manufacturer shall be liable for any injury, direct or consequential, arising out of the use of, or inability to use this paper.
