

NEENAH Jet-Pro SofStretch

Transfer Paper for Light-colored Substrates

Product Information Bulletin

Product Description:

NEENAH Jet-Pro SofStretch is designed for the heat transfer of photos and images using inkjet printers to print on light-colored substrates. It produces a soft stretchable hand and excels at producing crisp color while offering good wash-ability.

Product Benefits:

- ◆ For Most Inkjet Printers
- ◆ Chose Garments with Tight Weaves
- ◆ For Hot Peel Applications from a Commercial Heat Press Only
- ◆ Ideal for Transferring Images onto a Wide Variety of Light-colored substrates
- ◆ Manufactured by Neenah Papers Inc
- ◆ Produces a Soft Stretchable Hand and Crisp Colors
- ◆ Good Wash-ability

Product Applications:

NEENAH Jet-Pro SofStretch is designed for inkjet printers, for use on light-colored substrates. Great for T-shirts, sweatshirts, mousepads, coasters, puzzles, and leather goods. Best with garments that have a tight weave especially when transferring to sweatshirts. It is designed for commercial heat press or hand ironing.

MICHIGAN Specialty Paper

NEENAH JET-PRO[®] SofStretch[™] Heat Transfer Paper

FOR INK JET PRINTERS

NEENAH JET-PRO[®] SofStretch[™] Heat Transfer Papers are designed for the heat transfer of photos and images using ink jet printers to **light colored** T-shirts, sweatshirts, mousepads, coasters, puzzles and leather goods. Choose garments that have a tight weave. This is particularly important when transferring to sweatshirts.

PRINTING:

1. Mirror the image.
2. Load the paper so that the image will appear on the coated side of the paper.
3. Trim away the unprinted areas of the transfer if desired.

TRANSFERRING: Commercial Heat Press

1. Place the transfer on top of the garment with the image side down. Press:

30 seconds at 375° F using heavy pressure

2. Remove paper while still hot. For best hand stretch garment while still hot.

For Use With:

Ink Jet

Heat Press

Hand Iron OK

HEAT PRESS	
TEMPERATURE:	375°
PRESSURE:	Heavy
TIME:	30 Sec.

White or Light Color

WASHING INSTRUCTIONS: turn garment inside out and wash in cold water using a mild detergent, **do not use bleach** and machine wash ONLY. Dry on low heat setting. Do not iron directly on the transferred area.

STORAGE AND HANDLING OF NEENAHJET-PRO[®] Soft and Stretchy Heat Transfer Papers

Store NEENAH JET-PRO[®] Soft and Stretchy Heat Transfer Papers in a cool, dry area and do not remove from carton or poly bag until you are ready to use.

HAND IRONING INSTRUCTIONS can be found on our website at:

www.michiganspecialtypaper.com/product-literature

IMPORTANT

We thoroughly test each of our products on various substrates using different transfer equipment. However, it is impossible for us to duplicate all variables using all substrates and transfer equipment. Therefore, it is essential that you test the paper prior to production using your equipment, methods, and substrate material. Heat presses vary in accuracy. Conduct tests to determine the best time and temperature to use with your equipment. Please keep in mind that the Seller's and Manufacturer's maximum obligation shall be to replace any paper that has proven to be defective. Neither the Seller nor the Manufacturer shall be liable for any injury, direct or consequential, arising out of the use of, or inability to use this paper.
